

SKU: 175 HR-12AF-HP

## Aluminium Reel: 12" Rewind: Manual hand crank Was 175 4312S

---

### Features

- The standard reel used on all Kings Sprayers
- A heavy duty aluminum frame ideal for commercial and residential use
- Ball bearing support and a nickel plated swivel sit atop a grease fitting
- The spring loaded pin-lock facilitates an adjustable molded resin drag
- Lightweight and corrosion resistant for multiple applications
- Equipped with hand crank opposite from swivel for easy rewinding
- Resin bearing holders with stainless back plates for corrosion resistance
- Rectangular design more easily accommodates a simple and inexpensive stacking kit as well as a hose guide
