**Max Flow 8.3L/min**  
**Ports Quick Attach**

---

## EFSW2200 2.2GPM SOFT WASH (BLEACH) PUMP

**Pump Features:** Upgrade your system with the ground-breaking Everflo 12v On-Demand 2.2GPM Soft Wash Bleach Pump. This pump was engineered and designed to handle bleach applications. Featuring the exclusive Motor Shield that shuts the pump off if a leak is detected, protecting the motor and saving you money. Save battery power with the automatic power switch that turns off pump when no flow is needed. Easily self-prime up to 10 feet while having the ability to run dry without sustaining damage. Additional features include corrosion resistant Viton valves and Santoprene™ diaphragm, polypropylene pump manifold with Quick Attach Ports. CE approved & has standard mounting pattern for quick installation. Supported by a 1-year consumer and 90 day commercial warranty.

**Ideal Water Fluid Applications:** This innovative 12V soft wash bleach pump is perfect for soft wash applications that require cleaning off black mold, algae, lichen, and mildew from outdoor surfaces such as rooftops, siding and sidewalks. This bleach pump can also be used in disinfecting outdoor or indoor surfaces with effective bacteria or virus-killing bleach formulas.

**Includes Fittings:** Fittings include, (1) [QC x 1/2" Hose Barb](#) Fitting, (1) [QC x 3/8" Hose Barb](#) Fitting and (1) [QC x 1/2" MNPT](#) Fitting. For adaptable connections to plumbing system.
