

# HXR1-M 250-160 R MI

SKU: 216 HXR1-M 250-160 R MI

**Pressure MAX 2320 PSI**

**Flow 260 L/min**

**Gear-box 14T 12/24 DP-SAE J744 C**

---

## HXR1-M 250-160 R MI

Reciprocating plunger pump, 3 solid ceramic plungers, nickel plated spheroidal cast-iron head, aluminium crankcase with cataphoresis coating, triple sealing system, hardened steel crankshaft, oversize roller/ball bearings.

The pumps of this series complete with a gearbox, have a 14T female splined shaft, they produce a flow from 124,5 to 206 l/min, and they operate at Max 300 bar.

The pump with MI shaft type (hollow shaft) can be directly coupled to the hydraulic motor.

### Specifications

- **RPM:** 2200
  - **Flow:** 260 L/min
  - **Pressure:** 2320 Psi
  - **Power:** 106.8 Hp / 79.6 kW
  - **Weight:** 181 Kg
  - **Shaft Type:** Gear-box/Shaft 14T 12/24 DP - SAE J744 C
