

# PRESSURE REGULATORS 500 - 2000PSI - 316 STAINLESS STEEL

SKU: 225 7022.100

**Max Flow 25 gpm / 95 lpm**  
**Min Flow 2.5 gpm / 9.5 lpm**

This Pressure Regulator is designed for single or multiple pump, weep or multi-nozzle systems. It is constructed of 316SS. This is a flow-thru design easily plumbed into the discharge line or directly onto the discharge head. This regulator maintains set system pressure even when only one of several guns or nozzles is performing or a solenoid valve is open, by-passing the unused flow. The pressure is held in the line during full by-pass and instantly has full pressure, when all guns and nozzle resume operation. 5-10% by-pass is necessary for optimum performance.

#### Technical Specifications:

Max Flow	25 gpm / 95 lpm
Min Flow	2.5 gpm / 9.5 lpm
Max Pressure	1000 psi
Inlet Port Size	3/4" NPT(F)
Discharge Port Size	3/4" NPT(F)
Accessory Type	Pressure Regulators
Material	316 Stainless Steel
By-Pass Port	1" NPT(F)
